6. If you are asked to establish a new national holiday, what holiday would you like to suggest?

Write your answer in about 80 words. (15 点)

I suggest Japan establish a new holiday in June. This is because June is a month that has no national holidays. If we make the second or third Monday a holiday, we can have three consecutive days off in June, too. In my view, a lot of people would be happy about such an idea. As for the name of this day, I think "Rainy Day" would be best, as it would come in the middle of the rainy season. (80 語)
